

Go Get It Events designs High Seas Adventure for World's Luckiest Lady

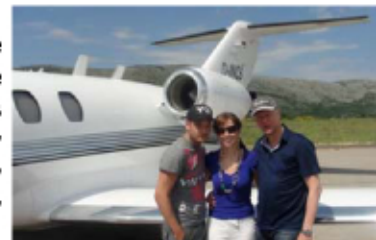

Stefan, a longtime client, came to GGIE with a challenging request: Find any place in the world to throw his wife, Heidi's 50th birthday extravaganza; a week-long surprise celebration in which every detail must surpass anything they had ever done before. The guest list: 100 family and friends. GGIE was in charge of arranging every little detail and every monumental task- from chartering the ship, to producing the itinerary for guests, to the decor, branding and all printed materials.

Always ready for a challenge, GGIE scouted every locale, from hotels to yachts to safaris. Stefan ultimately decided to charter the luxurious Seadream II cruise ship around the Greek Isles, Montenegro, Croatia and Italy. Heidi and the guests were not told where they were going- their only instructions were to pack for warm weather. As instructed, they showed up at the Zurich airport on July 17th; luggage in tow...

Now GGIE's next challenge--to find a secluded beach anywhere in Montenegro or Croatia to throw Heidi and her guests an elaborate 70's themed birthday party and concert. Over several months, the GGIE team boarded helicopters, private planes, and speed boats traveling around the Mediterranean to scout *the* perfect party location. At one point, GGIE president Jenifour Jones personally met with Transportation Minister of Montenegro to successfully

secure the yachts imperative anchoring permission. The first time such permission has ever been given to a commercial ship!

Meanwhile, the team spent countless hours working from their offices in the U.S. to help make Heidi's weeklong party one-of-a-kind. No task is ever too small!

When surprised guests first boarded the Seadream, they were welcomed with a "branded" gift bag full of wonderful presents and necessities, a custom designed agenda book and assigned their own luxurious suites. Along with 5-star service, the Seadream came equipped with countless water activities for the guests to enjoy. After sailing through the Greek isles for four days, where guests dined, enjoyed dancing, live music, karaoke and spatreatments, on the 5th day of their journey, they finally arrived in Montenegro....

It was here where GGIE threw Heidi her official birthday party; on a private beach cove near the prestigious Aman Resort, Sveti Stefan. With the ship anchored at sea, guests were tendered to a remote pier and then escorted through a rock cave on to the beach. Guests were told to wear 70s clothes, the staffers were given tie-dyed T-shirts, and in keeping with the retro theme, tables were adorned with "flower-power/disco" centerpieces and fun accessories. To add to the fun, GGIE designed a costume station complete with clothing, wigs, jewelry and glow-in-the-dark...everything!

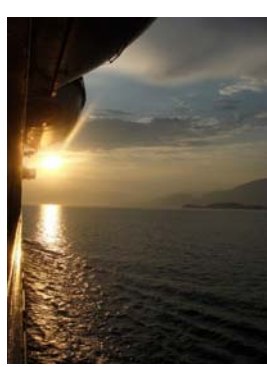

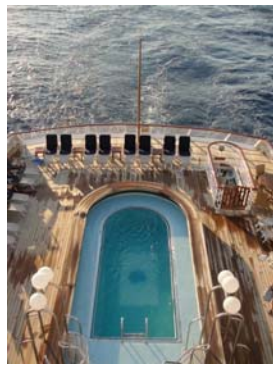

One of Heidi's favorite bands was flown in from Germany and serenaded the group with a night of dancing and singing. After dinner Stefan and his three sons took to the stage and performed a song that was written just for Heidi. There were also celebratory bonfires, an elaborate buffet and a GGIE produced video featuring Heidi's friends and family that was shown on an oversized screen. The band and dancing continued to play until 2 a.m. when guests finally retired back to their cabins on the ship for the night.

After relaxing and unwinding while sailing to Croatia, the last oceanic stop was Venice, Italy, where guests were treated to gondola rides, followed by a farewell cocktail and dinner party on the yacht, where, once again, one of Heidi's favorite bands- this time, a jazz trio- performed. At the dinner, GGIE arranged for the entire crew to wear custom gondolier outfits, and each guest received a gift, along with a farewell letter written by Heidi's husband and sons.

Whether it's by land, by air, by cove or by sea, ... Go Get It Events can help arrange any type of celebration...wherever it may be.

Let's get real: Travel Tips

by Jenifour Jones of Go Get It Events

***If your flight gets canceled while traveling**, quickly get to the gate of the next flight going to your destination. Nicely tell the gate agent that you want to get on that flight and don't leave his or her vision. The persistent (and sometimes pesky) traveler has a better chance of getting on the next flight. I have been told more than once a flight was full but then was allowed on seconds before the gate closed.

***When doing business in a foreign country**, consistently use the same driver, interpreter, DMC, cafe, etc. You would be surprised how many times a local has helped me get out of a "bind" or provided valuable information when I needed it most. I try to always use the same driver and take time to get to know them. Not only is it nice to get to know someone, but in an emergency, these people could make or break your trip!
